Ligia Ochoa Ramirez, Colombia
General English &
Professional Business English

Before starting I felt confused all the time. I didn't understand and I was scared when people talked to me in English.

My English is much better now and I enjoy improvising what I have learnt outside of school. I really recommend this school if you are trying to find a nice cosy school with the highest level of education. The teachers are the best and the school atmosphere makes you never want to leave the place!

Jan Drew, Germany
IELTS Academic &
Professional Business English

Now I have all the skills necessary for applying for jobs and advancing my career. My confidence and English level, especially in writing and speaking, have improved significantly during my time in PE. The most important part has been the quality of the teachers and learning supported by a wide range of learning methods.

I am convinced about the school and three of my friends have already started courses here based on my recommendation.

Other Information

Transferring Between Providers

Performance English will not seek to recruit students within the first 6 months of their course with another provider unless:

- The original registered provider has ceased to be registered or the course in which the student is enrolled has ceased to be registered;
- The original registered provider has provided a written letter of release;
- The original registered provider has had a sanction imposed on its registration by the Australian Government or state or territory government that prevents the student from continuing their principal course, or
- Any government sponsor of the student considers the change to be in the student's best interest and has provided written support for that change.

If an enrolled student finds that Performance English is not providing them with what they want, they can transfer to another school but only after they have been at Performance English for at least 6 months. The Australian government has strict rules about transferring to another school so it is important that students read these rules carefully (see: Transfer Between Providers Policy & Procedures) before thinking about transferring.

Living Costs

It is recommended that students allow a minimum of AU \$18,000 per year to cover their living costs such as accommodation, food, transport, entertainment, communication and any personal items that may be required.

School Aged Dependants

Students accompanied by school-aged dependants are required to ensure that the school-aged dependants are enrolled in a school. The options are to enrol in either a Government or a Private school. In both cases there may be applicable fees.

Overseas Health Cover

It is an Australian Government requirement that all students entering Australia on a student visa must be insured by Overseas Student Health Cover (OSHC) even if they already have their own private medical insurance. Performance English will transfer their payment to OSHC Worldcare, our preferred provider.

For rates and further information please contact your preferred campus of study.

The National Code

Australia has laws to protect overseas students. These laws are known as the ESOS framework and they include the Education Services for Overseas Students (ESOS) Act 2000 and the National Code 2007.
