

Lyceum Internship Program

Our Internship Program combines English tuition with a work experience placement with an Australian company. We can offer high-quality internships that give you the opportunity to link your studies with your career goals, improve your English skills in an English-speaking environment and gain valuable international work experience.

During the first part of the program, you will be attending a 4 to 12 week full-time English course depending on the level you need to satisfy the entry requirements for the work placement. The second part of the program then consists of a voluntary, unpaid internship in a field of your choice.
